Memories

*Hinsdale Jr. Academy*

631 E. Hickory  
Hinsdale, IL 60521

Memories light the corners of my mind,  
Misty water color memories  
of the way we were.

Scattered pictures of the smiles we  
left behind,  
Smiles we gave to one another for  
the way we were . . .

Memories may be beautiful, and yet,  
What's too painful to remember  
we simply choose to forget.

So its the laughter we will remember,  
Whenever we remember  
the way we were.

— Alan and Marilyn Bergman

May the scattered pictures we've saved for you  
from our 1986-87 school year bring you memories  
of the smiles and laughter we've shared.

## Dedicated to . . .

*Mrs. Barbara Zima*

In the past 20 years, Mrs. Barbara Zima has been diligently working as the secretary of Hinsdale Junior Academy. Mrs. Zima has been a true asset to the school and to the community. Her shining example in taking care of the needs of the four principals she has worked for and the assistance she's given to the students, has been a blessing. Mrs. Zima has witnessed many changes, including the expansion of the school building and the expansion of student enrollment from 100 to over 300 pupils.

She will be remembered for her fondness in watching over the little things at HJA. Mrs. Zima's knowledge and skill in school operations must have saved HJA a sizable amount of money over the years. The Lord has blessed all of us with her loving service and dedication. We want to wish you the best of everything — health, happiness and love as you enter a new phase in your life.

# Principal's Message

*Dann Dodd*

The 1986-87 school year began with some extra challenges; however, Hinsdale Junior Academy students and staff looked beyond those negative challenges and turned this year into a positive one. With the support of the school board and parents we are continually pursuing our goal of drawing closer to our Father.

H.J.A. remains an institution of quality — quality students, quality staff, and a quality program blessed by God. Through continued prayers and hard work, H.J.A. will continue to provide an excellent Christian education — a Seventh-day Adventist Christian Education.

## Andrews University would like to introduce your head to your hands

At Andrews there is no separating intellect from skill. In the College of Technology, we not only introduce your head to your hands, we help them form a full partnership with technology.

Our architecture programs are among the most exciting programs offered at

Andrews. We offer a Bachelor of Architecture (4+1 years), an Associate of Architectural Technology (2 years), and a Bachelor of Science in Architectural Studies (1+3 years). If you are creative, like to draw, and think three dimensionally, these are programs you should explore.

Our Aviation Maintenance program will prepare you to fill one of the 100,000 jobs that are projected to be unfilled in 1988. If you have mechanical aptitude and the ambition to back it up, our Aviation Maintenance program can get you off the ground.

Our facilities and faculty in photography and multi-image are top rate and professional. As a graduate of our photography pro-

gram you will be prepared to begin a career in advertising, photojournalism, audiovisual communication, or portraiture.

The Media Technology Program, multi-image option, is an interdisciplinary major. By combining course work in photography, commercial art, graphic arts, communication, and multi-image technology you will prepare to become a visual communication professional.

If we have given you new ideas about career directions that you may not have considered before, call us right away for more information. If we haven't mentioned your particular interest, call anyway. Chances are that among our 50 different programs in the College of Technology we have a program to help your career plans become reality.

Yes, I want to use my head and my hands in my career. Please send me information about the:

- Architecture Programs
- Aviation Maintenance Program
- Photography Programs
- Other interest
