A MESSAGE FROM YOUR PRINCIPAL

Hithere! You got a minute? Let me share some good advice I learned from a frog story told by Neil Eskelin.

Two frogs jumped into a bucket of cream on a dairy farm in Wisconsin.

"Ma as well give up," croaked one after trying in vain to get out. "We're gonners!"

"Keep on paddling," said the other frog. "We'll get out of this mess somehow!"

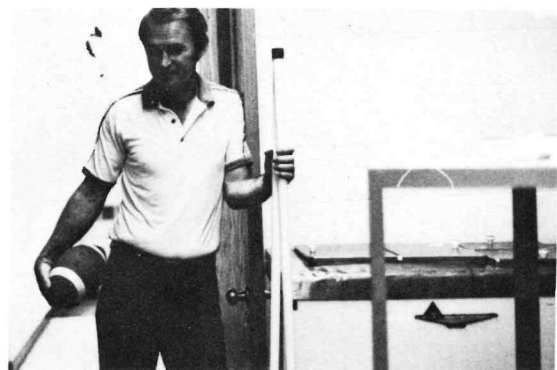

"It's no use," said the first frog. Too thick to swim. Too thin to jump. Too slippery to crawl. We're bound to die sometime anyway, so it may as will be to-night." He sank to the bottom of the bucket and died.

His friend just kept on paddling, and paddling, and paddling. And by morning he was perched on a mass of butter which he had churned all by him self. There he was, with a grin on his face eating the flies that came swarming from every direction.

That little frog had discovered what most young folks ignore: if you stick with the task long enough, you're going to be a winner.

Now I figure you are smarter than that frog so hang in there and don't give up.

"... he that endureth til the end shall be saved."
Matt. 10:22.

Congrats!

The exciting
new field
of health care
awaits you.

New field? Yes. Health care has been around as long as people, but almost everyday it's a new field because it's constantly changing and developing innovative approaches.

If you're going on with your studies, look into the health care field. And if you'd like to get into health care right now, we've got scores of programs to train you for whatever area you'd like to work in.

Health care. An exciting new field for interesting young people. Like you.
